

Dear Families,

As you know, an exciting part of third grade is having multiplication fact power (the ability to recall facts quickly and accurately). In class we have begun learning the different multiplication facts and various tricks to help us remember them. Please continue to help your child **memorize** the multiplication facts. This can be done through Xtramath.org, flashcards, fact triangles, and the web site:
<http://www.multiplication.com/games/all-games>.

In school, we will be giving multiplication quizzes weekly. In order to ensure that all of the students have mastered the facts from 0-10 we have created “deadlines” for each fact family.

Date to be mastered by:	Multiplication Facts:
November 30	0, 1, 2, 5, 10
December 21	9, 3
January 31	4, 8
February 28	6, 7

Thank you for your continued support!

The Third Grade Team
